S&WE Products Manager Hanlon:

I am writing to express my strong support of the Yucca Mountain Project and the adequate qualification process that will lead to approval. I have complete confidence in any recommendation that arises from the approval process. I urge you to fully support the Yucca Mountain Project.

P.S. I am writing from Public Citizen's form-letter web site called "Dump the Dump" that they use to misinform the public with their propaganda.

Sincerely,

James A. Hoerner
